Car-Part World Tour Class Descriptions

8:00am-9:00am: Setup

We strongly encourage you to bring your Windows laptop with you to class. You do not need to have any of our software installed on your laptop to participate - during this time, we will connect participants' computers to our simulation environment, giving you access to the software products we will discuss today.

9:00am-10:30am: Checkmate Sales Pro Basics

Checkmate Sales Pro is Checkmate, with a completely redesigned interface and workflow for the Find and Sell functions. It's sleek, modern, and intuitive to use, making selling parts faster and easier than ever. This is an interactive session that gives you the opportunity to get your hands on Sales Pro and try it out for yourself.

10:45am-12:00pm: Checkmate Sales Pro - Advanced (Part 1)

We have just released a major new update to Checkmate Sales Pro, and we're excited to show you what's new! In this session, we will take a deep dive into the latest enhancements.

2:00pm-3:30pm: Checkmate Sales Pro - Advanced (Part 2)
Including: Advanced Bidmate, Partmate Enhancements, Checkmate Sales Pro Inventory

In this session, we will finish reviewing the latest powerful Checkmate enhancements. We'll also talk about Advanced Bidmate (and how it unlocks extra information and features within Checkmate), the latest enhancements to Partmate (mobile inventory tool), and tricks to maintaining your inventory in Checkmate Sales Pro.

3:45pm-4:15pm: Checkmate Listing Manager for eBay
Including: Car-Part Interchange Plus, CrashLink

Checkmate Listing Manager for eBay makes it fast and easy to list many of your parts at once on eBay. Discover how you can begin making additional profit by selling parts on eBay that you rarely sell over the counter or to professional buyers. We'll also discuss Car-Part Interchange Plus (our exclusive interchange enhancement option) and CrashLink (OEM-based interchange and pricing information directly from your management system).

4:15pm-5:00pm: Car-Part Mobile Apps
Including: Photomate 2.0, Core Pricing, Car-Part.com, Car Part Pro, MyPartsApp

With Photomate, you can take photos of parts from your mobile device and send them right back to Checkmate (where they'll then be included in your next inventory upload to Car-Part.com marketplaces). We can't wait to show you how our tools work together to make your workday more efficient and productive.

We'll also discuss the Core Pricing app, MyPartsApp (a custom mobile app for your business), and the Car-Part.com and Car-Part Pro mobile apps (including how to make sure your parts show up on these mobile searches).
